Dear Mr. Jeff Linder,

Thanks for your help in the development of our new website. It looks great, it's easy to use, we're all proud of it, and it will help us get more of the kind of business that we want.

You did good work pulling our needs together, and giving us feedback on all our ideas. The graphics look great. The main messages and the text will make the right people want to do business with us.

The website has a world-class look to it, it puts us right there with the best in the market. It is important for us to look as good as we really are. The special features like mini slideshows and of all our properties make the whole site very useful to our customer base.

Thanks for working within our schedule and budget, and we'll send you more business!

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Kilgore". The signature is written in a cursive style with a long, sweeping underline that extends to the left.

Joe Kilgore
