Dear Jeff:

Thanks for all the good efforts. They have resulted in just the tool I was looking for to help generate phone calls, pre-qualify inquiries, and show everyone who we are and what we stand for.

You and your team at JBMA were a reliable source of ideas, and this project was all-around well-executed. Good input from JBMA on the "branding" side. These are all very important ideas and every detail of the finished product supports and reinforces these ideas, from the photography to the layout and the text. We had some challenges, but you made it overall a project that went smoothly.

We now have a world-class brochure that brings together very effectively the diverse areas of our practice.

Thanks for fitting into our timeframe, and managing the momentum for everyone. We are happy to do business with JBMA. I think this brochure for our firm is the best communications piece we've ever created.

Best regards,

Robert H. Bateman
